

Mohamed Yajjou

Full-stack developer

EXPERIENCE

Software developer — Simplifya since Sept. 2025

- Apprenticeship at a small accounting firm that writes its own software. I'm its developer.
- **Formalities:** creates, modifies and closes French companies, filed with the authorities. Next.js and React in front, Symfony and API Platform behind, PostgreSQL, Stripe.
- **Pre-accounting:** invoices read by a vision model, bank reconciliation, a FEC ledger out. Python, FastAPI.

Volunteer — VivaTech June 2025

Greeting and directing visitors, managing the queues...

Shop manager — Ahmburgers 2022 - 2024

A team of three: hiring, training, scheduling. The whole shop, from stock and suppliers to the counter.

Accounting assistant — Simplifya 2020 - 2022

VAT returns, bank reconciliation. The company I now write code for: I knew the business before the code.
